EDUCATION

Karunya Institute of Technology and Sciences, Coimbatore

Sep 2021 – Apr 2025

B.Tech Computer Science and Engineering: CGPA: 7.55/10

Aspiring Data Scientist with a solid foundation in data analytics, machine learning, and AI, skilled in Python, SQL, R, and predictive modeling. Experienced in extracting insights from structured and unstructured data and building data-driven solutions using deep learning and generative AI techniques.

TECHNICAL SKILLS

Python

Html

SQL

R

Tableau

Excel

INTERNSHIP

CISCO

(Remote)

Completed a 3-month internship on PCAP – Programming Essentials in Python.

Gained strong foundation in Python 3, OOP, data structures, control flow, and functions.

Strengthened skills in debugging, problem solving, and logical thinking.

Improved self-learning, time management, and task prioritization skills.

PROJECTS

Pathfinder: An AI-powered obstacle detection and navigation system using Deep Learning techniques

YOLOv8 is used for real-time object detection, enabling quick identification and localization of objects in an environment.

CNNs excel in image feature extraction. They help recognize visual patterns within the scene.

A pre-trained deep learning model identifies objects in the environment and provides auditory feedback.

Improving users ability to navigate safely and independently in real world scenarios.

Youtube Transcript Summarizer

This project is a YouTube Transcript Summarizer that uses Hugging Face Transformers like BART, T5, or Pegasus to generate short meaningful summaries of video content. It extracts transcripts from YouTube videos using the YouTube Transcript API and processes the text through pre-trained AI models to provide concise summaries. The tool helps users quickly understand long videos such as lectures, interviews, or tutorials without watching the entire content.

CERTIFICATIONS

- Google - Professional Certificate Google Data Analytics
- IBM - AI Developer
- Google - Introduction to Artificial Intelligence
- Google - python for Data Science, AI and Development
- OpenEDG - Python programming essentials
